**Subject:** remaining wells

See below for details efforts on remaining wells... bottom line: 1 well will not resample - barn not residence, 3 wells we already committed to resampling, 2 wells sent certified letter to resident - have not had a response, and 1 well can't contact residents... let me know if you have any questions.

There are 7 homes on the 1st round list that were not sampled yet. Here is their current status (as requested).

1. [Ex. 6 - Personal Privacy] wants to build a home on his property in the site area, but right now that property is not a residence and only a barn is located there. We told him we would not sample the well since its not a home well.

2. [Ex. 6 - Personal Privacy] on the day of sampling (part of lawsuit). We told his wife we would sample them when our crew came back for the resampling. They expect to hear from us.

3. [Ex. 6 - Personal Privacy] (deceased uncle's log cabin)- these are the [Ex. 6 - Personal Privacy] (HW8a) who lived in the trailer where we are supplying water. They inherited his uncle's log cabin and move there recently. Another family member moved into the trailer, which the [Ex. 6 - Personal Privacy] vacated. The log cabin was empty when we were sampling (uncle had already gone to the hospital and then died). We told the [Ex. 6 - Personal Privacy] we would sample the log cabin when our crew came back for resampling. They expect to hear from us.

3. [Ex. 6 - Personal Privacy] - was in Florida until April and is home now. We told him we would sample them when our crew came back for resampling. They expect to hear from us.

4. [Ex. 6 - Personal Privacy] Nobody lives at the residence in the site area. We left messages w/his wife on 1/30 and 2/2. Joanna McDonald spoke to her on 2/7. At that time, she was going to try to work something out. She could not miss work and does not live at the house, there is no water/electric at the house. Since then, she never returned subsequent calls. We have no valid address for her.

5. [Ex. 6 - Personal Privacy] We left numerous messages on a machine and also left one with his wife. He did not return any of those calls and did not respond the certified letter sent on February 8th signed by Rich Fetzer.

6. [Ex. 6 - Personal Privacy] - We did not have a valid phone number for him. He was sent a certified letter on February 8th, signed by Rich Fetzer, that he did not respond to.

Note: [Ex. 6 - Personal Privacy] are part of the lawsuit. We also notified their attorney (Tate Kunkle) through our attorney that he could contact us to schedule sampling for them, but we have not been contacted to date.
